Ko'alia Kona-ba **Rezultadu**

2017 – 2022 talking about the future

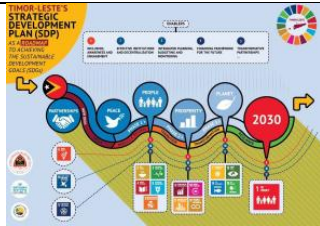

Why is the EWER system important?

- **The only comprehensive source of data and analysis on conflict drivers and trends occurring in all 13 municipalities**
- **Only program that links conflict analysis from the national-level back to the community level for action**
- **This system was contributed to government policy, programs are evaluations**
- **The only system able to detect tension in communities and design adequate manner to response or prevent**
- **The only system able to analyze the characteristics of monthly incidents**
- **WHAT WILL TIMOR-LESTE LOOK LIKE WITHOUT EWER?**

IMPORTANT ISSUES

- **Efficient Data Collection & Verification:** voluntary reporting challenge, optimizing media & online information – pilot various models to test what works
- **Policy & Situational Analysis Efficient:** Optimize national & international partnerships for policy response monitoring & advocacy to follow up 100s of policy recommendations
- **Talking About Results:** efficient results based management & communications system for both peace building and policy responses
- **Sustainable Resource Mobilization:** Evolving fundraising environment; non-donor funds
- **Strategic Alliance:** EWER alignment with SDP (TL) & SDGs (UN & G7+)
